The Anatomie of Mans body.

Astra regunt homines, sed regit astra Deus.

To know the time of the Tides in a more exact manner then heretofore.

Dayes after the Change, or Full, the Moon is South at

0	1	2	3	4	5	6	7
12 | 12 48	1 36	2 24	3 12	4 0	4 48	5 36	

Dayes after either of the Quarters, the Moon is South at

0	1	2	3	4	5	6	7					
6 | 6 48	7 36	8 24	9 12	10 0	10 48	11 36						

First find the new moon, full, or quarter, in the kalender; then count how many dayes are past either of those, and under the same number of dayes past, you shall here see the time that the moon will be south the same day: then look for the Haven or Port you desire, and where the houres and quarters stand before the same, there it is high water so many houres and quarters before the time above found: but where the houres and quarters stand after the place, there it is high water so long after the time first found. *As for example.*

The Moon being five dayes past the change, and so five dayes old: I find in the table, that five dayes after the change the Moon is south at four a clock, which makes full sea at *Quinborough*, *Southampton*, &c. but at *Yarmouth*, *Dover*, *Harwich*, an hour and a half sooner, that is at two a clock and thirty minutes: but at *London Limmouth*, and *Amsterdam* three houres after.

H. Quart.	Quinborough, Southampton, Portsmouth, Welkins
3 quart.	Rye, Callice, Calshot, Winchelsea, Gorend
1 2 quart.	Yarmouth, Bulloigne, Dover, Harwich, Wight
2 1 quart.	Needles, Deep, Casket, Lux, Lenow, Orford, Layston
3 Houres	Orkney-pool, Orwell, S. Hellen, Flee, Eames, Embdon
3 3 quart.	Port-land, Peter-pore, Hareflew, Hague, Blanch
2 2 quart.	Milford, Bridg-water, North-coast, Ex-water, Taxell
1 1 quart.	Briſtol, Lanion, Foulneſſe
5 Houres	Lin, Humb. Waymouth
